Signatory of:

1 Introduction and Background

This statement has been prepared in accordance with regulation 23 the Occupational Pension Scheme (Scheme Administration) Regulations 1996, as amended (the "Administration Regulations"), and having taken account of the related guidance from The Pensions Regulator ("TPR") when considering the various aspects of the operation of the Scheme on which we are required to report.

It relates to the Capita Oak Pension Scheme ("the Scheme") and covers the period from 06 April 2022 to 05 April 2023.

This statement will be published on a publicly available website.

Consideration has also been given to the Department for Work and Pensions guide on 'Reporting of costs, charges and other information'.

Matters in relation to the Scheme are considered by a dedicated committee of the Dalriada Trustees Limited ("Dalriada") Board, which meets at least four times a year. However, issues are also considered on an ad hoc basis between committee meetings. The Scheme has a dedicated client manager, alongside a project manager, who ensures anything requiring attention by the committee is communicated, and acted upon, in a timely manner.

As you are aware from the Announcements issued to members since its appointment, Dalriada was appointed as trustee to the Scheme by TPR amid concerns that the Scheme was not being properly run and in order to protect the interests of its membership. This has presented Dalriada with several challenges around governance. Nevertheless, this statement is a legal requirement and, as such, can serve as a useful reminder of the issues faced by Dalriada and, where it cannot meet certain governance obligations, I have explained why that it is the case.

The powers and duties exercisable by Dalriada in its capacity as trustee are to the exclusion of all other trustees of the Scheme. In any case the former trustee company was placed into liquidation prior to Dalriada's appointment. Therefore, Dalriada is and has been effectively the sole trustee of the Scheme.

The Scheme had a single investment in storage pods with Store First Limited, an unregulated UK based entity. Matters in relation to the actions being taken in respect of this investment were set out in the last Announcement to members dated August 2022.

The Scheme is also suspected of being used as a vehicle to allow members under the minimum retirement age of 55 to access their pension funds by way of a loan, or some other form of cash inducement. Should HMRC conclude that any such payments could be classified as unauthorised payments, it may issue provisional assessments for significant tax charges against both the Scheme and its members.

As reported in our announcement to members in November 2020, there has been a significant Court decision that determined pension schemes like the Scheme were able to make claims on the Fraud Compensation Fund ("FCF"). Dalriada has since been working with the Pension Protection Fund ("PPF"), who manage the FCF.

The FCF is open to claims by occupational pension schemes that have suffered a loss as a result of an act of dishonesty. Dalriada continues to work with the PPF to agree the precise steps that need to be taken in order to submit a formal application on behalf of the Scheme.

Specifically, Dalriada are working to provide the FCF with evidence pertaining to how the Scheme was being run by the former trustees, to include any evidence of dishonesty offences which could be attributable to the Scheme's losses.

Further, an application can only be made up to 12 months following the date of insolvency of the relevant scheme's employer. This relates to the need to obtain a 'Scheme Failure Notice' from the insolvency practitioners in relation to the scheme's employer.

The overall process may take a number of years to conclude. When a claim is submitted it can take up to eighteen months for that claim to be determined. However, as described above, Dalriada is working to ensure that all the necessary information to the FCF is provided, and we have responded to any queries as far as we can such that, when it is possible to progress any claim, this can be done as quickly and efficiently as possible. Dalriada will also need to resolve any question of tax issues for the Scheme with HMRC.

The FCF is also a fund of last resort and so Dalriada will need to determine with the FCF at what point this test is met, to the extent that we must pursue alternative avenues for recovery of assets.

Beyond the technical steps set out above member and financial information must also be analysed to quantify the amount of any claim.

Whilst these developments around the FCF are positive and potentially good news for members, at this time we cannot say for certain that any claim will ultimately be successful.

Dalriada will keep members informed of any progress by way of further Announcements.

Default arrangement

A number of requirements of the Administration Regulations relate only to a "default arrangement" as defined in the Occupational Pension Schemes (Charges and Governance) Regulations 2015.

The Scheme does not have a default fund for ongoing accrual. It is not a qualifying scheme within the meaning given by section 99 of the Pensions Act 2008. The Scheme is not used to meet any auto-enrolment obligations and no contributions are being paid into the Scheme. The Scheme's assets are made up solely by way of member transfer payments into the Scheme.

The Scheme did not, and does not, offer a Default Lifestyle Strategy and did not offer members any real choice as to how their funds were invested.

As there is no default arrangement in the Scheme there have been no specified performance-based fees incurred during the scheme year.

For the reasons set out in Section 1, it is not possible to provide members with a meaningful statement on the return on their investments.

The purported investments made by the previous trustee(s) were not made acting upon the recommendation of any appropriately qualified advisor.

This Chair's Statement, and other information, is published on a dedicated Scheme website. However as the assets in the Scheme cannot be fully determined, we cannot produce meaningful annual benefit statements or pension illustrations for the Scheme members. We are therefore unable to comply with the requirement to notify members in an Annual Benefit Statement that the relevant parts of the Chair's Statement have been published on the website.

Due to the numerous issues outlined within this statement, including the lack of liquid funds, it is not possible to produce annual Trustees' Report and Financial Statements.

Statement of Investment Principles (“SIP”)

Ordinarily, trustees should prepare a SIP to govern decisions about investments. This is a requirement for schemes with 100 members or more.

While the Scheme has more than 100 members, a SIP has not been prepared for the Scheme.

The Scheme has been in receipt of rental income and sale proceeds related to the ownership and sale of the storage pods. Whilst that is the case, the funds recovered are only a fraction of the sums invested. Dalriada has also been in receipt of rates bills for each individual pod in most of the sites where funds were invested. In addition, the Scheme has incurred material costs which are set out in further detail below. Therefore, at this time, there are no funds available to invest.

As no liquid assets are available to invest on behalf of the Scheme, Dalriada took the view that preparing a SIP would not be in any way meaningful. It was also decided that the cost of obtaining investment advice and drafting a SIP would result in an unnecessary cost being accrued by the Scheme at this time. Dalriada has informed TPR of the decision not to produce a SIP.

Should sufficient additional assets be recovered on behalf of the Scheme in due course, Dalriada will take appropriate advice to determine a suitable investment strategy which reflects Dalriada’s intention to wind-up the Scheme as soon as it is able, giving members the opportunity to transfer any remaining funds to a more suitable arrangement. However any further recovery is likely to be made from a successful claim on the Fraud Compensation Fund, at which point we would simply look to wind up the Scheme and transfer members’ benefits to alternative arrangements.

As the investments are unconventional and predominantly unregulated, they do not comply with any maximum charge requirements. Dalriada is working to realise investments where it is appropriate and possible to do so.

As above the Scheme currently holds minimal liquid assets. Subject to any FCF application for compensation, it is Dalriada’s ultimate intention to wind up the Scheme as soon as it is able and to transfer any remaining funds to a more suitable arrangement.

Review of default strategy and default arrangements

There is no default investment arrangement or default investment strategy in place for the Scheme at the current time. As such, there has been no review of the default arrangement or default strategy in the year in question and no previous review for which a date can be given.

Core Financial Transactions

Trustees have a specific duty to ensure that core financial transactions relating to DC schemes are processed promptly and accurately. These include the following:

- investing contributions in the scheme
- transferring assets related to members into or out of the scheme
- transferring the assets between different investments within the scheme
- making payments from the scheme to or on behalf of the members.

The Scheme does not currently accept contributions or transfers in and is unable to pay any level of benefit, including transfers values, to members at the present time.

This is due to a number of factors, not least uncertainty, to date, as to whether or not the Scheme can achieve compensation via the Fraud Compensation Fund, and with regard to potential tax charges which may be levied against the Scheme should it be deemed that any unauthorised payments to members occurred.

The financial transactions the Scheme does make are primarily in relation to costs.

Unsurprisingly, Dalriada has been unable to carry out routine administrative actions for the Scheme over the reporting period. Therefore, there have been no material administration service issues which need to be reported here.

Notwithstanding this, Dalriada, as a professional independent trustee, has processes and controls in place that are suitably designed to ensure any service objectives can be achieved once the Scheme is in a position to operate in the manner of a normal scheme. Dalriada's administrations processes are independently audited and accredited under AAF 01/20 and AAF 02/07.

Once Dalriada is in a position to process member benefit requests these will be managed and monitored in line with Dalriada's standard service level agreement (SLA) levels and targets and formally reported on, on a quarterly basis.

In addition, acknowledging that we need accurate member data for the processing of member benefits, Dalriada will carry out an analysis of 'common data' and 'scheme specific data' (as defined by TPR). This will be conducted as part of the FCF application process and prior to any benefits being paid from the Scheme. This will help us to ensure the integrity of member data that is processed.

We perform monthly bank account reconciliations for all the schemes to which Dalriada is appointed. The purpose of these reconciliations is to ensure that all transactions processed through the bank accounts (money in and out) can be accounted for. Any transactions which cannot be accounted for are investigated and corrected if required.

Charges and Transaction Costs

Governance rules require trustees to make an assessment of investment management charges and transactions costs borne by the scheme members and the extent to which those charges and costs represent good value for money for members.

The Trustee has calculated the charges and, so far as they were able to do so, the transaction costs, borne by Scheme members for the Scheme Year.

In this context, "charges" means (subject to some specific exceptions, such as charges relating to pension sharing orders) all administration charges other than transaction costs.

"Transaction costs" are costs incurred as a result of the buying, selling, lending or borrowing of investments.

Dalriada has deviated from the approach set out in the DWP statutory guidance for the reasons set out below.

Since Dalriada's appointment there have been no transactions, as no payments into the Scheme have been accepted, either by way of contribution or transfers-in. As a result, there have been no transaction costs.

Dalriada assumed trusteeship of the Scheme via a bulk appointment by TPR, when Dalriada was also appointed to two other schemes. All three schemes shared (and continue to share) similar characteristics.

Where work is carried out that has a mutual benefit to two or, indeed, all three schemes, collectively, the costs will be shared by the relevant combination of schemes.

Under the terms of its appointment, the fees of Dalriada and its advisers fall as debt due from the employer (or sponsor). However, this company was dissolved in October 2022. In this situation the terms of appointment set out that costs (or "charges") should be met from Scheme funds.

Due to the mismanagement of the Scheme by its previous trustees and the subsequent actions taken by Dalriada since appointment, it is inevitable that the Scheme has incurred, and will continue to incur, significantly higher ongoing costs than would be the case for a similarly sized but conventional scheme.

The Scheme met trustee costs accrued for the reporting period totalling £67,997.83 (excluding VAT) and accrued £15,573.48 (excluding VAT) in respect of legal costs of which £3,122.13 was paid.

In addition, over the period, trustee services totalling £15,661.31 (excluding VAT) were provided collectively to two, or all of, the three schemes to which Dalriada was appointed under the same Order.

As one of the other schemes under the same appointment had no funds for the period in question to meet these costs, the Scheme has paid some of the cost and met part of the other schemes' costs (total paid £7,830.66). When significant recovery is made to the schemes the balance of this cost will be paid and the shared costs will be reimbursed.

"Good value" assessment of charges and transactions

Generally, trustees should assess the extent to which the charges described above represent "good value" for members during the scheme year, by considering the level of member borne charges against the benefits attributable to such charges.

Whether something represents good value is not capable of being precisely defined. However, for these purposes, trustees should consider that charges may be viewed as representing good value for members where an optimum combination of cost and quality is achieved for the whole membership, relative to other options available in the market.

The characteristics of the Scheme are unusual and there are no readily available comparators to determine whether the costs incurred represent good value.

However, the actions undertaken by Dalriada, beyond those considered necessary for the appropriate management of the Scheme, are centred on action around recovery of funds. Such actions are considered on a cost-benefit analysis. Where necessary, Court approval would be sought for the use of Scheme funds to pay for any legal action.

Dalriada was appointed following a tender exercise by TPR and is subject to ongoing oversight by TPR.

Dalriada's costs (both for ongoing management and regarding action around recovery of funds) are calculated using a blended charging rate. This rate sits well below Dalriada's standard market rates for senior staff. The trustee's legal advisers operate on a similar basis, albeit on a different charging rate.

As commented above, Dalriada, as a professional independent trustee, has processes and controls in place that are suitably designed to ensure any service objectives can be achieved once the Scheme is in a position to operate in the manner of a normal scheme. Dalriada's administration processes are independently audited and accredited under AAF 01/20 and AAF 02/07.

Once Dalriada is in a position to process member benefit requests these will be managed and monitored in line with Dalriada's standard SLA levels and targets, and formally reported on, on a quarterly basis.

Dalriada is required to advise members of the cumulative effect over time of the application of charges and costs on the value of a member's accrued rights to money purchase benefits. In the event of a successful claim on the FCF, the costs incurred by Dalriada attributable directly or indirectly to dealing with the act(s) of dishonesty giving rise to the claim can be compensated for as part of the claim. If an FCF claim is successful, Dalriada would expect a significant proportion of the costs incurred by the Scheme to date to be compensated by the FCF.

Consequently, it is impossible at this time to provide a meaningful illustration of the cumulative effect over time of the relevant costs and charges on the value of the members' benefits until the level of FCF compensation for costs incurred is known. When Dalriada is in a position to do so, it will advise members of the cumulative effect over time of the relevant costs and charges on the value of the members' benefits.

Given the nature of the Scheme and the fact that Dalriada was appointed as Trustee with exclusive powers as a result of TPR's concerns about the misuse and misappropriation of Scheme funds, and those concerns having been well founded, the Scheme could not and cannot provide good value to members.

As noted above we cannot produce meaningful annual benefit statements for the Scheme members. We are therefore unable to comply with the requirement to notify members in an Annual Benefit Statement that the relevant parts of the Chair's Statement have been published on the website.

Dalriada is working with the PPF to submit a claim on the FCF on behalf of the Scheme. A successful FCF claim represents the best possible chance for members to see a substantive element of recovery of their benefits under the Scheme. The Scheme will need to meet the eligibility criteria for FCF compensation and submission of a claim, in and of itself, does not mean that compensation will be paid to the Scheme.

Once the FCF claims process is complete Dalriada will wind up the Scheme and secure members' benefits with an alternative registered pension provider, to the extent it is possible to do so.

Value for Members Assessment and Reporting of Net Investment Returns

The Occupational Pension Schemes (Administration, Investment, Charges and Governance) (Amendment) Regulations 2021 ("the 2021 Regulations) introduced new requirements for trustees of relevant occupational pension schemes to carry out a more detailed value for members ("VfM") assessment.

For the purposes of the 2021 Regulations, the Scheme is a "relevant occupational pension scheme" because at the date of this Statement the Scheme had total assets worth less than £100 million and had been operating for three or more years.

A VfM assessment should include a comparison of the reported costs, charges and fund performance (net investment returns) for the given scheme against a minimum of three other comparison schemes, as well as a self-assessment of key scheme governance and administration criteria.

Given the particular circumstances of the Scheme (including the minimal liquid assets held, the lack of comparison schemes with which to usefully compare the Scheme and the fact that Dalriada has been appointed as Trustee to ultimately wind-up the Scheme) a more detailed VfM assessment, and consideration of the key scheme governance and administration criteria, is not possible and would not be meaningful. Furthermore, given the lack of invested assets in the Scheme, a comparison of investment returns is not possible.

However, despite not being able to carry out a detailed VfM assessment in line with the 2021 Regulations, we are of the view that such an assessment would conclude that the Scheme could not and cannot provide value for members, given the circumstances outlined in this Statement.

2 Trustee knowledge and understanding

The Trustee has considered the latest guidance in relation to Chair Statements from TPR and has ensured that its practices reflect the requirements set out. I have set out below how the Trustee ensures it currently meets the knowledge and understanding requirements of trustees.

DALRIADA TRUSTEES LIMITED ("DALRIADA")

Dalriada is an independent professional trustee, established in 2003, which has been appointed by TPR under section 7 of the Pensions Act 1995 to a significant number of schemes. These appointments have been as a result of TPR having concerns about the nature and operation of the schemes and the extent to which the then trustees understood their statutory and fiduciary duties and responsibilities. Dalriada refers to such schemes as "Regulatory Appointments". The Scheme is a Regulatory Appointment.

Dalriada has established a specialist team drawn, from various relevant disciplines within Dalriada to manage the governance of these Regulatory Appointments, which we have called the Irregular Schemes Team.

A dedicated committee – the Irregular Schemes Practice Board ("the Practice Board") – has been established by the Board of Directors of Dalriada to oversee the activities of the Irregular Schemes Team in its governance of this Scheme and other Regulatory Appointments. Care has been taken to ensure that the membership of the Practice Board is such that there is sufficient knowledge and understanding to meet the requirements set out in sections 247 and 248 of the Pensions Act 2004 and TPR's Code of Practice 7 on Trustee Knowledge and Understanding.

I have set out below the membership of the Practice Board, along with a short summary of their skill set and experience. In addition, it is worth noting that two members of the Practice Board are directors of Dalriada.

Dalriada operates a team-based approach, which gives the Irregular Schemes Team access to over 150 pensions and support personnel, with a broad skill set suited to identifying and implementing the variety of tasks required to successfully manage the schemes. This includes pension administration experts, an in-house legal team, fund accountants and investment experts. Whilst the core Irregular Schemes Team deals with the majority of matters arising on the Scheme on a day-to-day basis (in conjunction with its appointed advisers), it can access the specialist expertise of the wider Dalriada team as and when required.

As far as we are aware, no other professional independent trustee firm has established and developed a specialist team in this difficult and challenging area of trusteeship. The relevant experience developed by the Irregular Schemes Team on such cases is unmatched and unrivalled.

THE PRACTICE BOARD

Sean Browes

Sean has been working in the pensions industry since he graduated in 1988. He worked for two major benefit consultancies in both administration management and consultancy roles, before joining Dalriada in 2003. Sean has a broad range of skills and experience suited to all areas of pension scheme management.

Sean leads the Irregular Schemes Team, dealing with Dalriada's appointments by TPR to schemes suspected of being involved in pension liberation or thought to be scams. He now has a wealth of experience and knowledge with regard to the unique characteristics associated with the administration and management of these types of scheme and the challenges they present.

Sean is a fully accredited member of the Association of Professional Pension Trustees, has completed TPR's Trustee Toolkit and holds the Pensions Management Institute's Certificate in DC Governance and Award in Pension Trusteeship (DC and DB). Sean has met all required CPD requirements.

Neil Copeland

Neil is a co-founder of Dalriada and acts as an Accredited Professional Trustee on some of our most complex and challenging cases, including our Regulatory Appointments. Neil specialises in schemes with technically challenging governance and covenant issues, as well as having over 25 years of experience in relation to defined benefit, hybrid, defined contribution, multi-employer and sectionalised arrangements.

Neil spends a significant proportion of his time working on Regulatory Appointments. Like Sean, Neil has developed considerable experience of the complex and non-standard issues faced by the Dalriada team in managing the Regulatory Appointments. This has included acting as a witness in high profile litigation in relation to Regulatory Appointments in support of TPR and representing Dalriada in oral hearings before the Determinations Panel, where Dalriada's appointment by TPR has been challenged by the incumbent trustees or other directly affected parties.

Neil is a fully accredited member of the Association of Professional Pension Trustees, has completed TPR's Trustee Toolkit and is a Fellow of the Pensions Management Institute and holds their Certificate in DC Governance and Award in Pension Trusteeship (DC and DB). Neil has met all required CPD requirements.

Tom Lukic

Tom is a director of Dalriada and leads the Dalriada business across the Midlands. He has broad pensions experience with particular expertise in employer covenant and corporate transactions. He has worked with a range of trustee boards managing scheme assets from c.£5 million to more than £1 billion. Similarly, he is experienced in working with a broad spectrum of sponsoring employers from small, owner-managed businesses through to much larger and complex groups, being either privately owned or fully listed.

Tom's experience, both as an adviser and as an Accredited Professional Trustee, provides particular insight into corporate structures and insolvencies. Where the investments of Regulatory Appointments include shares and/or bonds in, or issued by, corporate entities, an understanding of the accounting and financial structures of these entities is essential and Tom provides a wealth of experience in this area.

Tom is a fully accredited member of the Association of Professional Pension Trustees, has completed TPR's Trustee Toolkit and holds the Pensions Management Institute's Award in Pension Trusteeship (DC and DB). Tom has met all required CPD requirements.

Brian Spence

Brian is a co-founder and director of Dalriada. He is now involved in the provision of a wide range of advice to pension scheme sponsors and trustees. Brian is well-known in the pensions industry for taking a strategic view in dealing with pension scheme matters and uses his experience to deliver practical solutions which satisfy the needs of trustees, employers and other stakeholders. Brian is recognised by TPR and the pensions industry as an expert in dealing with contentious and/or complex issues. He is a lead contact and "key person" for a number of high-profile trustee appointments.

In addition, Brian has practical experience of working as a Professional Trustee in all three major legal jurisdictions of the UK and as a Professional Trustee and advisor in Ireland. Brian has held a UK Scheme Actuary Practising Certificate since inception of the role in 1997.

Brian has an in-depth knowledge of legal processes, particularly around testing points of legal principle related to the operation of pension schemes, often as a result of deficiencies in scheme documentation (a

common issue with Regulatory Appointments). He also has experience in litigation involving pension schemes – where it is cost effective to do so, Dalriada will look to take legal action against the perpetrators of a scam with the aim to recover misappropriated assets.

Brian is a fully accredited member of the Association of Professional Pension Trustees, has completed TPR's Trustee Toolkit and holds the Pensions Management Institute's Award in Pension Trusteeship (DC and DB). Brian has met all required CPD requirements.

Amanda Banister

Amanda is a professional trustee with a wealth of experience in the pensions industry. Before joining Dalriada, Amanda was a pensions partner in a global law firm. She also spent three years in-house at the Pension Protection Fund in its early years, shaping its legal approach and gaining wide experience in pensions policy and insolvency/restructuring. After leaving, she continued to advise the PPF on some of its highest profile and most complex matters.

Amanda's experience of working with and advising the PPF is a valuable asset to the Practice Board, as is her significant experience of contentious pensions issues, including Pensions Ombudsman disputes. Amanda also has a strong governance and risk management skillset, with an ability to solve testing problems, which are strongly aligned with the work of the Practice Board and Regulatory Appointments in general.

Amanda is a qualified solicitor, has completed TPR's Trustee Toolkit and holds the Pensions Management Institute's Award in Pension Trusteeship. Amanda has met all required CPD requirements.

3 Knowledge of the trust deed and rules

All documents setting out the trustee's current policies

The Scheme has a dedicated client manager who has an in-depth knowledge of the Scheme and its governing documentation.

At the point of becoming Independent Trustee to the Scheme, a prescribed take-on process was followed. This included an assimilation and review of all the relevant Scheme documentation, including the trust deed and rules. The Practice Board is made aware of any issues or risks in relation to the Scheme's trust deed and rules as and when they arise, with appropriate action agreed in relation to the issue or risk identified. In addition to the knowledge held by the client manager and Irregular Schemes Team, the Trustee obtains legal advice in relation to the Scheme's documentation, where necessary.

There have been no new trustees introduced in this reporting period. However, there is an appropriate induction process in place to support new trustees.

A working knowledge of the current Statement of Investment Principles

As set out earlier, the Scheme does not have a SIP at this time due to the particular circumstances of the Scheme.

Sufficient knowledge and understanding of the law relating to pensions and trusts and understanding of the principles relating to the funding and investment of occupational schemes

Those Dalriada staff working on the Scheme are obliged to self-evaluate their learning and development requirements on a quarterly basis as part of Dalriada's internal review process. The process identifies how staff can develop their knowledge and understanding, as well as where they can share their expertise in order to best support the Scheme. Dalriada staff are also required to comply with their respective training requirements in order to maintain a required level of continuing professional education ("CPE") and to provide evidence of courses, seminars and other types of professional development to satisfy their respective professional bodies' CPE requirements.

Every Professional Trustee is required to undertake a minimum number of hours training each year. This is recorded centrally by Dalriada's Human Resources Team and, where appropriate, forms part of staff personal development plans. This training can include internal and external courses and attendance at industry events, as well as a degree of self-learning by way of subscriptions to professional publications and electronic information channels.

Further, every Professional Trustee is required to complete TPR's Trustee Toolkit and subscribes to the updates issued by TPR.

Professional Trustees belong to Dalriada's knowledge management network which keeps them up to date with industry thinking. They also have access to a team of in-house pensions experts who inform the team about changes to pensions legislation and practices.

The trustees have access to Pendragon Perspective and Aries - both industry-leading tools, giving access to pension legislation.

Dalriada has its own in-house legal specialists to provide support and guidance to trustees around legislation and interpretation of scheme documentation. This is further aided by advice from external legal advisers, which is obtained when the Trustee feels this reinforcement is necessary to support their own understanding.

Combined knowledge and understanding, together with available advice enables the trustees to properly exercise their function

Dalriada has informally assessed the skill set and experience of each member of the Practice Board and the client team. It has taken into account the development activities already mentioned, along with the internal resources made available to staff, supplemented, where required, by professional external advice.

The Practice Board understands the need to more formally assess the skills of its members. This is done using a skills matrix developed for this purpose. Any areas for development flagged during this process will be addressed as part of the individual's personal development plan and reviewed throughout the year.

An evaluation of the effectiveness of the Practice Board as a whole is also carried out.

I consider that the combined knowledge and understanding of the Practice Board and the client team enables them to exercise properly their function as trustee of the Scheme. In particular:

- Members of the Practice Board have the relevant financial knowledge and experience to enable the Trustee to comply with its duties in relation to investment of the Scheme's assets. Tom Lukic's experience (see above) is particularly advantageous in this area.
- There is a vast range of pensions experience and knowledge within the Practice Board and the client team. This is appropriate to deal with the governance of the Scheme in line with the trust deed and rules, along with other scheme documentation. There is also a great deal of experience relevant to dealing with issues which might be thrown up by the Scheme which require the amendment of scheme documentation.
- Sean Browes, Neil Copeland and Brian Spence have a great deal of knowledge and experience in relation to schemes of complex nature, such as this Scheme. This includes schemes where investments made by previous trustees are deemed to be highly inappropriate, their administration has been poor and / or the previous trustees have not had the sufficient knowledge and understanding to be trustees of an occupational pension scheme.
- Sean Browes and Neil Copeland have many years of experience in the administration of pension schemes, allowing a keen oversight of the administration of the Scheme.

Member Representation

Dalriada seeks to keep members informed and to facilitate direct access for members to Dalriada by means of a:

- Dedicated member website;
- Dedicated contact e-mail address; and
- Dedicated phone line.
