Signatory of:

1 Introduction and Background

This statement has been prepared in accordance with regulation 23 the Occupational Pension Scheme (Scheme Administration) Regulations 1996, as amended (the "Administration Regulations"), and having taken account of the related guidance from The Pensions Regulator ("TPR"), most recently updated in March 2022, when considering the various aspects of the operation of the Scheme on which we are required to report to members.

It relates to the Target Source Media Pension Scheme ("the Scheme") and covers the period from 01 June 2021 to 31 May 2022.

This statement will be published on a website made available to members.

Consideration has also been given to TPR's 'A quick guide to the chair's statement' and to the Department for Work and Pensions guide on 'Reporting of costs, charges and other information', both published in September 2018.

Matters in relation to the Scheme are considered by a dedicated committee of the Dalriada Trustees Limited ("Dalriada") Board, which meets at least four times a year. However, issues are also considered on an ad hoc basis between committee meetings. The Scheme has a dedicated client manager, alongside a project manager, who ensures anything requiring attention by the committee is communicated, and acted upon, in a timely manner.

As you are aware from the Announcements issued to members since its appointment, Dalriada was appointed as trustee to the Scheme by TPR amid concerns that the Scheme was not being properly run and in order to protect the interests of its membership. This has presented Dalriada with several challenges around governance. Nevertheless, this statement is a legal requirement and, as such, can serve as a useful reminder of the issues faced by Dalriada and, where it cannot meet certain governance obligations, I have explained why that it is the case.

Whilst the previous trustee was not removed by TPR, Dalriada was appointed with exclusive powers, to the exclusion of all other trustees. The Scheme was previously under the stewardship of Confideo Pension Trustees Limited and, prior to that, Target Source Media Ltd ("TSM"). The latter is a company in liquidation, and the former has already been dissolved.

Dalriada has received no paperwork in relation to the investments made by the former trustees. In addition, whilst Dalriada had limited cooperation from some of those parties involved in the previous management of the Scheme, those same parties claimed to have little or no knowledge of the Scheme's investments.

The majority of the Scheme's assets (£514,000) were paid out of the Scheme's bank account to a bank account based in the Czech Republic. These payments were purportedly in respect of an investment into a company called Breder Transact Ltd (now B Transact Ltd). In addition, around £79,000 was similarly paid to a bank account based in Poland, this time purportedly in respect of an investment in a company called Black Bull Investments Ltd. Further, just under £100,000 was paid out to the personal UK savings account of an individual connected with the Scheme.

A small number of members transferred their pension benefits into the corporate bank account of TSM. In respect of these payments we understand TSM transferred funds to one or both of the 'investments' set out above, as well as payments totalling £27,000 to a company called Music Up Ltd which, at the time of the reported investment, was a failing company.

Whilst attempts have been made to have these funds returned to the Scheme, Dalriada has been unable to recover them and considers those funds to have been lost.

The Scheme was also used as a vehicle to allow members under the minimum retirement age of 55 to access their pension funds by way of direct cash payments. In particular we understand that a portion of the c. £100,000 detailed above was paid to members. Further, payments to members were purportedly made from a company called Admin Services Nationwide which, itself, may have received funds from the 'investment' monies paid into Breder Transact Ltd. Should HMRC conclude that any such payments be treated as unauthorised payments, it may still issue provisional assessments for significant tax charges against both the Scheme and its members.

As reported in our announcement to members in November 2020, there has been a significant Court decision that determined pension schemes like the Scheme were able to make claims on the Fraud Compensation Fund ("FCF"). Dalriada has since been working with the Pension Protection Fund ("PPF"), who manage the FCF.

The FCF is open to claims by occupational pension schemes that have suffered a loss as a result of an act of dishonesty. As reported in our last Announcement the FCF team has confirmed that the Scheme is eligible for compensation, having agreed that it has suffered losses as a result of fraud or dishonesty.

This is positive news for the Scheme and its members. Dalriada is in ongoing and detailed correspondence with the FCF to reach an agreed level of compensation.

As soon as the Scheme has been compensated by the FCF, Dalriada will look to put the Scheme into wind up and transfer members' benefits to a more suitable arrangement. Our next communication with members will be to provide information on the value of members' benefits within the Scheme and the next steps needed in order to transfer those benefits out of the Scheme.

Default arrangement

A number of requirements of the Administration Regulations relate only to a "default arrangement" as defined in the Occupational Pension Schemes (Charges and Governance) Regulations 2015.

The Scheme does not have a default fund for ongoing accrual. It is not a qualifying scheme within the meaning given by section 99 of the Pensions Act 2008. The Scheme is not used to meet any auto-enrolment obligations and no contributions are being paid into the Scheme. The Scheme's assets are made up solely by way of member transfer payments into the Scheme.

The Scheme did not, and does not, offer a Default Lifestyle Strategy and did not offer members any choice as to how their funds were invested.

The Scheme invested in a number of unusual, unregulated, high risk and largely illiquid investments that are difficult to value or, indeed, properly identify or establish. As such, in Dalriada's view, there has never been an appropriate default investment arrangement for the Scheme. There is also no life-styling option available.

The purported investments made by the previous trustees were not made acting upon the recommendation of any appropriately qualified advisor.

The Scheme currently holds minimal liquid assets. On receipt of recovered funds Dalriada would normally take appropriate advice to determine a suitable investment strategy which reflects Dalriada's intention to wind-up the Scheme as soon as it is able. In this instance, as soon as the Scheme has been compensated by the FCF, Dalriada will look to put the Scheme into wind up and transfer members' benefits to a more suitable arrangement.

It is not possible at this time to provide members with a meaningful statement on the return on their investments.

This Chair's Statement, and other information, is published on a dedicated Scheme website. At this time, we cannot produce meaningful annual benefit statements for the Scheme members. We are therefore unable to comply with the requirement to notify members in an Annual Benefit Statement that the relevant parts of the Chair's Statement have been published on the website.

Statement of Investment Principles ("SIP")

Ordinarily, trustees should prepare a SIP to govern decisions about investments. This is a requirement for schemes with 100 members or more.

No serviceable SIP existed for the Scheme prior to Dalriada's appointment. As the Scheme has fewer than 100 members it is not a requirement to produce a SIP.

As set out above as soon as the Scheme has been compensated by the FCF Dalriada will look to put the Scheme into wind up and transfer members' benefits to a more suitable arrangement.

As the investments are unconventional and predominantly unregulated, they do not comply with any maximum charge requirements. As set out above Dalriada considers that the invested funds have been lost.

Due to the numerous issues outlined within this statement, including the lack of liquid funds, it is not possible to produce annual Trustees' Reports and Financial Statements.

Review of default strategy and default arrangements

There is no default investment arrangement or default investment strategy in place for the Scheme at the current time. As such, there has been no review of the default arrangement or default strategy in the year in question and no previous review for which a date can be given.

Core Financial Transactions

Trustees have a specific duty to ensure that core financial transactions relating to DC schemes are processed promptly and accurately. These include the following:

- investing contributions in the scheme
- transferring assets related to members into or out of the scheme
- transferring the assets between different investments within the scheme
- making payments from the scheme to or on behalf of the members.

The Scheme does not currently accept contributions or transfers in and is unable to pay any level of benefit, including transfers values, to members at the present time.

As above we are working closely with the FCF towards an agreed level of compensation. As soon as the Scheme has been compensated by the FCF Dalriada will provide members with information on the value of their benefits within the Scheme.

The Scheme has not made any financial transactions in the period. The financial transactions the Scheme does make are, in the main, in relation to costs.

Unsurprisingly, Dalriada has been unable to carry out routine administrative actions for the Scheme over the reporting period. Therefore, there have been no material administration service issues which need to be reported here.

Notwithstanding this, Dalriada, as a professional independent trustee, has processes and controls in place that are suitably designed to ensure any service objectives can be achieved once the Scheme is in a position to operate in the manner of a normal scheme. Dalriada's administrative processes are independently audited and accredited under AAF 01/06 and AAF 02/07.

Once Dalriada is in a position to process member benefit requests these will be managed and monitored in line with Dalriada's standard SLA levels and targets and formally reported on, on a quarterly basis.

In addition, acknowledging that we need accurate member data for the processing of member benefits, Dalriada will carry out an analysis of 'common data' and 'scheme specific data' (as defined by TPR). This helps us to ensure the integrity of member data that is processed.

We perform regular bank account reconciliations for all the schemes to which Dalriada is appointed. The purpose of these reconciliations is to ensure that all transactions processed through the bank accounts (money in and out) can be accounted for. Any transactions which cannot be accounted for are investigated and corrected if required.

As reported in the previous Chair Statement, as a result of difficulties regarding the Scheme's Metro Bank account Dalriada has opened a new trustee bank account with Barclays. This is subject to the same monthly banking reconciliations noted above.

Charges and Transaction Costs

The governance rules require trustees to make an assessment of investment management charges and transactions costs borne by the scheme members and the extent to which those charges and costs represent good value for money for members.

The Trustee has calculated the charges and, so far as they were able to do so, the transaction costs, borne by Scheme members for the Scheme Year.

In this context, "charges" means (subject to some specific exceptions, such as charges relating to pension sharing orders) all administration charges other than transaction costs.

"Transaction costs" are costs incurred as a result of the buying, selling, lending or borrowing of investments.

Dalriada has deviated from the approach set out in the statutory guidance for the reasons set out below.

Since Dalriada's appointment there have been no transactions, as no payments into the Scheme have been accepted, either by way of contribution or transfers-in. As a result, there have been no transaction costs.

Under the terms of its appointment, the fees of Dalriada and its advisers fall as a debt due from the employer. However, this company was put into compulsory liquidation in May 2018 and there will not be sufficient assets to meet the costs. In this situation the terms of appointment set out that costs (or "charges") should be met from Scheme funds.

As well as compensating for any investment loss resulting from an act (or acts) of dishonesty, the FCF can also compensate for losses as a result of the costs incurred by the trustee dealing with those act(s) of dishonesty. Therefore, beyond any 'business as usual' expenses the FCF will compensate the majority of the costs incurred by Dalriada. As above Dalriada are in ongoing and detailed correspondence with the FCF to reach an agreed level of compensation which will include the extent to which costs can be compensated for. These costs are nonetheless reportable over the period in question and so have been set out below.

Due to the mismanagement of the Scheme by its previous trustees and the subsequent actions taken by Dalriada since appointment, it is inevitable that the Scheme has incurred, and will continue to incur, significantly higher ongoing costs than would be the case for a similarly sized but conventional scheme.

During the current period, the Scheme has incurred trustee services costs totalling £48,539.59 (including VAT) and £46.50 (including VAT) in respect of legal costs. As the Scheme currently holds limited funds, none of these costs have been met.

Generally actions have centred on correspondence with the FCF and related actions, in particular with regard to member and financial records, as well as extensive efforts to contact the remaining members who have not already been in touch.

Dalriada will continue to confirm to members the amount of costs incurred in subsequent Chair Statements.

As and when costs can be met, Dalriada will confirm also to members the amount of costs incurred and, as part of the wind up process, have a final set of Report & Accounts prepared. In addition, a Net Asset Statement has been prepared as part of the required steps for facilitating compensation payments from the FCF. An independent auditor has been appointed for this purpose.

“Good value” assessment of charges and transactions

Generally, trustees should assess the extent to which the charges described above represent “good value” for members during the scheme year, by considering the level of member borne charges against the benefits attributable to such charges.

Whether something represents good value is not capable of being precisely defined. However, for these purposes, trustees should consider that charges may be viewed as representing good value for members where an optimum combination of cost and quality is achieved for the whole membership, relative to other options available in the market.

The characteristics of the Scheme are unusual and there are no readily available comparators to determine whether the costs incurred represent good value.

However, the actions undertaken by Dalriada, beyond those considered necessary for the appropriate management of the Scheme, are centred on action around recovery of funds and in submitting an application to the FCF and addressing any follow up enquiries. Such actions are considered on a cost-benefit analysis. Where necessary, Court approval would be sought for the use of Scheme funds to pay for any legal action.

Dalriada was appointed following a tender exercise by TPR and is subject to ongoing oversight by TPR.

Dalriada’s costs (both for ongoing management and regarding action around recovery of funds) are calculated using a blended charging rate. This rate sits well below Dalriada’s standard market rates for senior staff. The trustee’s legal advisers operate on a similar basis, albeit on a different charging rate.

As commented above, Dalriada, as a professional independent trustee, has processes and controls in place that are suitably designed to ensure any service objectives can be achieved once the Scheme is in a position to operate in the manner of a normal scheme. Dalriada’s administration processes are independently audited and accredited under AAF 01/06 and AAF 02/07.

Once Dalriada is in a position to process member benefit requests these will be managed and monitored in line with Dalriada’s standard SLA levels and targets, and formally reported on, on a quarterly basis.

Dalriada is required to advise members of the cumulative effect over time of the application of charges and costs on the value of a member’s accrued rights to money purchase benefits. However, due to the nature of

Dalriada's appointment and the uncertainty as to the impact of both Dalriada's and its adviser's fees, as well as the value of the Scheme's investments and how these should then be attributed to the members, this is not possible to do at this time. When Dalriada is in a position to do so, it will advise members of the cumulative effect over time of the relevant costs and charges on the value of the members' benefits.

Given the nature of the Scheme and the fact that Dalriada was appointed as Trustee with exclusive powers given TPR's concerns about the misuse and misappropriation of Scheme funds, and those concerns having been well founded, the Scheme could not and cannot provide good value to members.

As noted above we cannot produce meaningful annual benefit statements for the Scheme members. We are therefore unable to comply with the requirement to notify members in an Annual Benefit Statement that the relevant parts of the Chair's Statement have been published on the website.

A successful FCF claim has effectively represented the best possible chance for members to see some element of recovery of their benefits under the Scheme. The Scheme has met the eligibility criteria for FCF compensation and, as set out above, Dalriada is in correspondence with the FCF to reach an agreed level of compensation.

Once the FCF claims process is complete Dalriada will wind up the Scheme and transfer members' benefits to a more suitable arrangement.

2 Trustee knowledge and understanding

The Trustee has considered the latest guidance in relation to Chairman's Statements from TPR and has ensured that its practices reflect the requirements set out. I have set out below how the Trustee ensures it currently meets the knowledge and understanding requirements of trustees.

DALRIADA TRUSTEES LIMITED ("DALRIADA")

Dalriada is an independent professional trustee, established in 2003, which has been appointed by TPR under section 7 of the Pensions Act 1995 to a significant number of schemes. These appointments have been as a result of TPR having concerns about the nature and operation of the schemes and the extent to which the then trustees understood their statutory and fiduciary duties and responsibilities. Dalriada refers to such schemes as "Regulatory Appointments". The Scheme is a Regulatory Appointment.

Dalriada has established a specialist team drawn, from various relevant disciplines within Dalriada to manage the governance of these Regulatory Appointments, which we have called the Irregular Schemes Team.

A dedicated committee – the Irregular Schemes Committee ("the Committee") – has been established by the Board of Directors of Dalriada to oversee the activities of the Irregular Schemes Team in its governance of this Scheme and other Regulatory Appointments. Care has been taken to ensure that the membership of the Committee is such that there is sufficient knowledge and understanding to meet the requirements set out in sections 247 and 248 of the Pensions Act 2004 and TPR's Code of Practice 7 on Trustee Knowledge and Understanding.

I have set out below the membership of the Committee, along with a short summary of their skill set and experience. In addition, it is worth noting that three members of the Committee are directors of Dalriada.

Dalriada operates a team-based approach, which gives the Irregular Schemes Team access to over 120 pensions and support personnel, with a broad skill set suited to identifying and implementing the variety of tasks required to successfully manage the schemes. This includes pension administration experts, an in-house legal team, fund accountants and investment experts. Whilst the core Irregular Schemes Team deals with the majority of matters arising on the Scheme on a day-to-day basis (in conjunction with its appointed advisers), it can access the specialist expertise of the wider Dalriada team as and when required.

As far as we are aware, no other professional independent trustee firm has established and developed a specialist team in this difficult and challenging area of trusteeship. The relevant experience developed by the Irregular Schemes Team on such cases is unmatched and unrivalled.

THE COMMITTEE

Sean Browes

Sean has been working in the pensions industry since he graduated in 1988. He worked for two major benefit consultancies in both administration management and consultancy roles, before joining Dalriada in 2003. Sean has a broad range of skills and experience suited to all areas of pension scheme management.

Sean leads the Irregular Schemes Team, dealing with Dalriada's appointments by TPR to schemes suspected of being involved in pension liberation or thought to be scams. He now has a wealth of experience and knowledge with regard to the unique characteristics associated with the administration and management of these types of scheme and the challenges they present.

Sean is a fully accredited member of the Association of Professional Pension Trustees, has completed TPR's Trustee Toolkit and holds the Pensions Management Institute's Certificate in DC Governance and Award in Pension Trusteeship (DC and DB). Sean has met all required CPD requirements.

Neil Copeland

Neil is a co-founder of Dalriada and acts as an Accredited Professional Trustee on some of our most complex and challenging cases, including our Regulatory Appointments. Neil specialises in schemes with technically challenging governance and covenant issues, as well as having over 25 years of experience in relation to defined benefit, hybrid, defined contribution, multi-employer and sectionalised arrangements.

Neil spends a significant proportion of his time working on Regulatory Appointments. Like Sean, Neil has developed considerable experience of the complex and non-standard issues faced by the Dalriada team in managing the Regulatory Appointments. This has included acting as a witness in high profile litigation in relation to Regulatory Appointments in support of TPR and representing Dalriada in oral hearings before the Determinations Panel, where Dalriada's appointment by TPR has been challenged by the incumbent trustees or other directly affected parties.

Neil is a fully accredited member of the Association of Professional Pension Trustees, has completed TPR's Trustee Toolkit and holds the Pensions Management Institute's Award in Pension Trusteeship (DC and DB). Neil has met all required CPD requirements.

Tom Lukic

Tom is a director of Dalriada and leads the Dalriada business across the Midlands. He has broad pensions experience with particular expertise in employer covenant and corporate transactions. He has worked with a range of trustee boards managing scheme assets from c.£5 million to more than £1 billion. Similarly, he is experienced in working with a broad spectrum of sponsoring employers from small, owner-managed businesses through to much larger and complex groups, being either privately owned or fully listed.

Tom's experience, both as an adviser and as an Accredited Professional Trustee, provides particular insight into corporate structures and insolvencies. Where the investments of Regulatory Appointments include shares and/or bonds in, or issued by, corporate entities, an understanding of the accounting and financial structures of these entities is essential and Tom provides a wealth of experience in this area.

Tom is a fully accredited member of the Association of Professional Pension Trustees, has completed TPR's Trustee Toolkit and holds the Pensions Management Institute's Award in Pension Trusteeship (DC and DB). Tom has met all required CPD requirements.

Brian Spence

Brian is a co-founder and director of Dalriada. He is now involved in the provision of a wide range of advice to pension scheme sponsors and trustees. Brian is well-known in the pensions industry for taking a strategic view in dealing with pension scheme matters and uses his experience to deliver practical solutions which satisfy the needs of trustees, employers and other stakeholders. Brian is recognised by TPR and the pensions industry as an expert in dealing with contentious and/or complex issues. He is a lead contact and "key person" for a number of high-profile trustee appointments.

In addition, Brian has practical experience of working as a Professional Trustee in all three major legal jurisdictions of the UK and as a Professional Trustee and advisor in Ireland. Brian has held a UK Scheme Actuary Practising Certificate since inception of the role in 1997.

Brian has an in-depth knowledge of legal processes, particularly around testing points of legal principle related to the operation of pension schemes, often as a result of deficiencies in scheme documentation (a common issue with Regulatory Appointments). He also has experience in litigation involving pension

schemes – where it is cost effective to do so, Dalriada will look to take legal action against the perpetrators of a scam with the aim to recover misappropriated assets.

Brian is a fully accredited member of the Association of Professional Pension Trustees, has completed TPR's Trustee Toolkit and holds the Pensions Management Institute's Award in Pension Trusteeship (DC and DB). Brian has met all required CPD requirements.

Amanda Banister

Amanda is a professional trustee with a wealth of experience in the pensions industry. Before joining Dalriada, Amanda was a pensions partner in a global law firm. She also spent three years in-house at the Pension Protection Fund in its early years, shaping its legal approach and gaining wide experience in pensions policy and insolvency/restructuring. After leaving, she continued to advise the PPF on some of its highest profile and most complex matters.

Amanda's experience of working with and advising the PPF is a valuable asset to the Committee, as is her significant experience of contentious pensions issues, including Pensions Ombudsman disputes. Amanda also has a strong governance and risk management skillset, with an ability to solve testing problems, which are strongly aligned with the work of the Committee and Regulatory Appointments in general.

Amanda is a qualified solicitor, has completed TPR's Trustee Toolkit and holds the Pensions Management Institute's Award in Pension Trusteeship. Amanda has met all required CPD requirements.

3 Knowledge of the trust deed and rules

All documents setting out the trustee's current policies

The Scheme has a dedicated client manager who has an in-depth knowledge of the Scheme and its governing documentation.

At the point of becoming Independent Trustee to the Scheme, a prescribed take-on process was followed. This included an assimilation and review of all the relevant Scheme documentation, including the trust deed and rules. The Committee is made aware of any issues or risks in relation to the Scheme's trust deed and rules as and when they arise, with appropriate action agreed in relation to the issue or risk identified. In addition to the knowledge held by the client manager and Irregular Schemes Team, the Trustee obtains legal advice in relation to the Scheme's documentation, where necessary.

There have been no new trustees introduced in this reporting period. However, there is an appropriate induction process in place to support new trustees.

A working knowledge of the current Statement of Investment Principles

As set out earlier, the Scheme does not have a SIP at this time due to the particular circumstances of the Scheme.

Sufficient knowledge and understanding of the law relating to pensions and trusts and understanding of the principles relating to the funding and investment of occupational schemes

Those Dalriada staff working on the Scheme are obliged to self-evaluate their learning and development requirements on an annual basis as part of Dalriada's internal appraisal process. The process identifies how staff can develop their knowledge and understanding, as well as where they can share their expertise in order to best support the Scheme. Dalriada staff are also required to comply with their respective training requirements in order to maintain a required level of continuing professional education ("CPE") and to provide evidence of courses, seminars and other types of professional development to satisfy their respective professional bodies' CPE requirements.

Every Professional Trustee is required to undertake a minimum number of hours training each year. This is recorded centrally by Dalriada's Human Resources Team and, where appropriate, forms part of staff personal development plans. This training can include internal and external courses and attendance at industry events, as well as a degree of self-learning by way of subscriptions to professional publications and electronic information channels.

Further, every Professional Trustee is required to complete TPR's Trustee Toolkit and subscribes to the updates issued by TPR.

Professional Trustees belong to Dalriada's knowledge management network which keeps them up to date with industry thinking. They also have access to a team of in-house pensions experts who inform the team about changes to pensions legislation and practices.

The trustees have access to Pendragon Perspective and Aries - both industry-leading tools, giving access to pension legislation.

Dalriada has its own in-house legal specialists to provide support and guidance to trustees around legislation and interpretation of scheme documentation. This is further aided by advice from external legal advisers, which is obtained when the Trustee feels this reinforcement is necessary to support their own understanding.

Combined knowledge and understanding, together with available advice enables the trustees to properly exercise their function

Dalriada has informally assessed the skill set and experience of each member of the Committee and the client team. It has taken into account the development activities already mentioned, along with the internal resources made available to staff, supplemented, where required, by professional external advice.

The Committee understands the need to more formally assess the skills of its members. This is done using a skills matrix developed for this purpose. Any areas for development flagged during this process will be addressed as part of the individual's personal development plan and reviewed throughout the year.

An evaluation of the effectiveness of the Committee as a whole is also carried out.

I consider that the combined knowledge and understanding of the Committee and the client team enables them to exercise properly their function as trustee of the Scheme. In particular:

- Members of the Committee have the relevant financial knowledge and experience to enable the Trustee to comply with its duties in relation to investment of the Scheme's assets. Tom Lukic's experience (see above) is particularly advantageous in this area.
- There is a vast range of pensions experience and knowledge within the Committee and the client team. This is appropriate to deal with the governance of the Scheme in line with the trust deed and rules, along with other scheme documentation. There is also a great deal of experience relevant to dealing with issues which might be thrown up by the Scheme which require the amendment of scheme documentation.
- Sean Browes, Neil Copeland and Brian Spence have a great deal of knowledge and experience in relation to schemes of complex nature, such as this Scheme. This includes schemes where investments made by previous trustees are deemed to be highly inappropriate, their administration has been poor and / or the previous trustees have not had the sufficient knowledge and understanding to be trustees of an occupational pension scheme.
- Sean Browes and Neil Copeland have many years of experience in the administration of pension schemes, allowing a keen oversight of the administration of the Scheme.

Member Representation

Dalriada looks to keep members informed and to facilitate direct access for members to Dalriada by means of a:

- Dedicated member website;
- Dedicated contact e-mail address; and
- Dedicated phone line.
